

## Making a Reservation

The GeoDome will be available for rental on **Mondays** and **Wednesdays** (exceptions considered on a case-by-case basis).

When making a reservation, please be able to provide:

- Location of setup
- Date(s) requested
- Age of audience
- How many presentations
- Desired length of each presentation
- Specific topics/interests for content
- Primary contact information

## Examples of Presentation Topics

The universe is a big place!

Below are some examples of topics that can be covered that utilize the Uniview software, but if there are topics being taught within your own class that you want to reinforce or others you believe your audience will take interest in, the presentation content can vary and be adjusted.

- Constellations (Lakota and Western)
- The Solar System & its Planets
- Satellites, Technology, & Space Exploration
- Scale of the Universe

## The GeoDome in Action

The GeoDome set up in the gymnasium at Garfield Elementary School, Sioux Falls
